Please find below and/or attached an Office communication concerning this application or proceeding.

Art Unit: 1632

Applicant's response to the restriction/election requirement received on 7/1/02 has been entered. See below.

Response to Amendment

The reply filed on 7/1/02 is not fully responsive to the prior Office action because of the following omission(s) or matter(s): while the applicant has elected group I, claims 1-29, and 33-37, for prosecution on the merits, and further the species a) plasmid vector and II) DR5, the applicant has failed to identify which claims read upon the elected species. See 37 CFR 1.111. The response simply indicates that claims 1-29 and 33-37 are in condition for allowance. The previous office action stated on page 7 that a complete response to this requirement must include an identification of the species that is elected, consonant with this requirement, **and a listing of all claims readable thereon**, including any claims subsequently added. Currently, claims 23-27, 29, 30, and 33-37 are generic for the species of nucleic acid, and claims 1-3, 5-15, 17-25, 27-36, and 38-39 are generic for the species of immunomodulatory proteins. Applicant is requested to identify the claims which correspond to the elected subject matter.

Since the above-mentioned reply appears to be *bona fide*, applicant is given a TIME PERIOD of **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid

abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER
37 CFR 1.136(a).
